A CONFERENCE HELD

Yesterday Between Wheeling Ball Club and Wheeling & Elm Grove Officials Looking to the Playing of Sunday Ball-A McLaughlin Story.

All over the Inter-state league circuit the magnates and scribes are counting Waceling in the bunch of towns in which Sunday ball will be played this season. Here in Wheeling this assurance is not yet felt, though it is likely to be realized in the near future, as negotiations between President Howell, of he Nailers, and the officials of the Wheeling & Elm Grove raffroad com-

pany are progressing nicely. Friday afternoon, Mr. Howell had a conference with Vice President Paul O. Reymann and General Manager W. S. Wright, of the railroad company, rela ive to the building of a park for Sunay games east of the city along their ne. This morning the trio will take a es that have been mentioned, including the ground just back of the Wheelins the ground just back of the Wheeling Park casino; the McsLaughlin ground heyond Elm Grove, and the Whitaker lot just beyond Eoho Point, as well as one or two others that have been offered to the railroad company.

A very large proportion of the base ball public is demanding Sunday ball, and the club is doing everything in its power to heed the demand. The railroad company, it is said, wants the ball club to play both week-day and Sunday games out the pike, but the unequalled advantages of the Island park for week-day games cannot be approached by any out-the-pike site/And it can be predicted with safety that the Island park will not be deserted.

A good story is being told of Mr. Willam McLaughlin, whose first base ball Jenkins, at Gallon, Ohio, but the match tenure was as one of the Wheeling club's director's in 1888, when this city was in the old Tri-state league. At that tim., Mr. McLaughlin was somewhat green in the game, and such things as strike-outs were not to be thought of in connection with any player who was receiving a piece of his hard money. He attended the opening hard money. He attended the opening game and his heart was warmed mighttwo of the three visiting team's out his pleasure knew no bounds, but when the first liming struck out his pleasure knew no bounds, but when the first Wheeling batsman induled in a strike-out, Mr. McLaughlin turned to a fellow director and remark-

That isn't what we pay that dub to do. We must let him go at once."

The story isn't bad, but is probably an exaggeration at the expense of the gesial McLaughlin.

BOXING.

There has been a wonderful revival of local interest in boxing the past week and Monday night's contest is a topic of general discussion, in fact, the whole thing in boxing circles. First, the respective merits of Leslie Pearce and Stanton Abbott are argued pro and con. and then the debate switches over to the preliminary, which promises some sport. Doubtless no boxer has ever worked so faithfully to get himself in shape for a preliminary event as George Carle has done. He has been at George Carle has done. He has been at it sood and hard every day this week, and the tales of his strength would fill a book. He is doing most of his training at the brover's Home, Benwood, and he trequently lets a couple of strong young fellows come at him at one time—a sort of battle royal. Then he undergoes the customary bagpunching, rope skipping, etc., and Lespand punching, rope skipping, etc., and Leslie Pearce, who has sparred with him,
says Carle exhibits a surprising
amount of science for a comparative
novice, Owing to his strength, Carle
has been termed a young buil. He is a
modest young fellow, who wants to
know what he can do, and paens to
find out by tackling Kid Wanko.

usual. The sports haven't had anything in this line for a long time, and the club certainly ought to be rewarded with liberal patronage for its efforts to give the best the market affords. The star attraction, George Siler as referee, and a corking preliminary, are three of a kind hard to down. The weather prospects are favorable, but the club can heat the building if occasion requires it.

C., says: "I think there is no better medseins on earth than your Perruna for catarrh. It has surely cored me. It would take a volume to tell you all the good it has done for me. Pe-ru-na is the greatest remedy ever prepared, and I think I have tried them all." The Doctor receives many such letters every week.

Miss Sadie Martinot, the prom inent young actress, writes to Dr. Hartman in regard to Pe-ru-na, as fol lows: "It gives me great pleasure to recommend Pe-ru-na to the members of my profession. I have found it most helpful, and taken directly before the performance, whenever the voice seems unreliable, it relieves hoarseness and dispels all tendency to coughing. I regard it as invaluable to actresses, singers, and all persons who are obliged to depend upon clearness of voice. I consider Peru-us of espe cial benefit to women and particularly recommend it to them. My dressing table is never without it.
